The new show for the Butler tonight looks like one of the best arrays of moving pictures that they have had in some time, and that is saying a good deal. The chief attractions are "The Indian Idol," a spectacular picture; "His First Topper," a boy with a high hat; "The Persevering Lover," "The Man That Walks on the Water," "Diablo Nightmare," and "Going Through Switzerland," said to be one of the best scenic pictures that was ever taken from a moving train. The illustrated songs by Billie Walker will be "Tell Me Will My Dream Come True," and "Neath the Acorn Tree, Sweet Estelle."

## COMSTOCK TAKES ON RENEWED LIFE

GREAT STRIKE ON THE OPHIR STARTS THINGS IN GENERAL.

The strike in the Ophir mine on the Comstock, from all accounts is the biggest happening that has taken place in Virginia City since the old days of her pristine glory. R. J. Wisnom, mill superintendent of the famous Butters' plant in Virginia City was here yesterday on a visit, and he says that the strike is something phenomenal.

"The strike," said Mr. Wisnom, "was made on the 2150 level of the mine, a long way out to the east, the vein running north and south. There is a body of eighteen feet, which breaks better than \$100 a ton. Of course this has not been thoroughly developed, but there are good indications of it being a permanent body. They are also drifting on the 2300 level to catch the ledge at that depth, but it is so hot down there that the miners can do little work. The pumps and fans are going all the time, but even that does not bring much relief.

"On the Yellow Jacket, they are putting through 200 tons a day in the Kincaid mill, and the ore goes from \$11 to \$15 a ton. This is free milling ore, and they are only concentrating. The Savage is also taking out some good ore. The development of the Ophir ledge will be of interest to this camp, for there is no doubt that Tonopah is on the Comstock lode. They have the same character of ore there that you have here, and about the same percentage of gold and silver.

"We expect to open up the Butters plant shortly. We closed down for the reason that our contracts for ore had terminated, and it would hardly pay to work the ore at the present low price of silver. However, the indications are that the price of silver is going up, and this will depend upon our resuming work.

"On my way in here I went to the new strike at Mountain View. It is located eight miles northwest of Schurz, and about fourteen miles from Yerrington. The vein can be traced for four thousand feet and one can get pannings from any part of it on the surface. I did not go on the Yerrington side of the district, where is located the Wilson Gold Mining Company. There are a number of leases in operation, and the people are just beginning to get in there. They expect to get the overflow from Rawhide, and there is a townsite already opened up, and a number of lots have been sold. I should not be surprised if the district should be heard from before the end of the year, for there are some very good showings on the surface."

Mr. Wisnom will leave for Virginia City this morning.

## JAP IMMIGRATION GREATLY DECREASES

(By Associated Press.)

WASHINGTON, Feb. 20.—At the Cabinet meeting today Secretary Straus of the Department of Commerce and Labor, laid before the President some significant figures as to immigration. The figures show that for January there was a large decrease in the number of Japanese arriving in the United States. The total arrivals for both the mainland and Hawaii were 971, as compared with about 5000 for January, 1907. Straus did not offer any explanation as to this falling off.

As to the immigration to the United States from other countries, Straus said the total for January was 2700, as compared with 5400 in January a year ago, a decrease of 50 per cent. He showed that for July, August, September and October the total arrivals were 463,000, while 190,000 left the United States.

## SHERIFF HELD FOR BROTHER'S MURDER

Sheriff Phil Smith of Caliente, Lincoln county, is being held to the Lincoln county Grand Jury, charged with the murder of his twin brother, John Smith, who was wounded late in December, and who died a few days ago. There is much mystery connected with the case, but much of the evidence tends to show that the Lincoln county sheriff is guilty of killing his brother. It seems that one evening in December, John Smith visited the home of his brother and while there was shot. At the time it was stated that he had been shot by a thug who was looking for the sheriff.

Later it was reported by both brothers that the wounded man had dropped his revolver and was thus wounded.

Now the district attorney of Lincoln county, and other officers, have caused the arrest of the sheriff and have charged him with the murder of his twin brother.

The accused man declared he is innocent and courts the fullest investigation.

## LUMBER PRICES WILL BE RAISED

(By Associated Press.)

SAN FRANCISCO, Feb. 20.—The fight between the Marine Engineers' Association and the steam schooner owners of San Francisco is now on in dead earnest. The committee which controls 90 per cent of the steam vessels carrying lumber to and from this port and other ports on the Pacific coast, having today decided to lay up every one of these vessels, with the exception of the schooner Westport, which carried food stuff exclusively to Crescent City. Nearly 1000 men will be affected by the action of the owners and 12,500,000 feet of lumber will cease to be handled through this port. The effect will be, it is thought, to cause an increase in the prices of lumber in all points along the coast. Five schooners scheduled to sail today were taken to Oakland creek, tied up and the crews discharged.
